NOTES ON OUTSTANDING ACTIONS

Overdue Actions (Require Immediate Attention):

- CAR-2025-007 (Phishing response procedure): Originally due 30 April 2025. David Chen to reschedule target to 15 December 2025. Delay attributed to resource constraints following incident response to high-severity phishing attack (INC-2025-003).
- CAR-2025-009 (Secure document disposal): Originally due 30 June 2025. Tom Bradley (Facilities Manager) to confirm status and revised target date by 1 December 2025. Delay attributed to coordination with external contractor for document destruction.
- CAR-2025-012 (Training records centralisation): Originally due 30 September 2025. James O'Brien is implementing new HRIS system. Target rescheduled to 31 January 2026. Current status: 60% complete with manual audit of records in progress.

Data Quality Issues:

- CAR-2025-011 (Database access controls review): Marked as 'Closed' but no completion date recorded. Completed in late August 2025 but closeout not formally documented. Sarah Williams to update record.
- CAR-2025-013 (USB policy enforcement): Marked as 'Closed' but no completion date recorded. Implementation completed approximately 28 July 2025. Marcus Lee to add completion date.

In Progress Actions (On Track):

- CAR-2025-003, CAR-2025-005, CAR-2025-006, CAR-2025-008, CAR-2025-010 are all tracking to meet target dates. Weekly progress reviews being conducted by David Chen.

NEXT REVIEW

This register will be reviewed and updated on 10 December 2025. Outstanding corrective actions will be escalated to management review if not closed by target dates.
